Fi360[®] Fiduciary Score[™] Report

Your custom fi360[®] Fiduciary Score[™] Report is attached for your review. For more information or to learn more about Janus please contact us at 1-877-33JANUS (52687).

The attached analysis has been completed for your review based on the criteria and mutual funds you, as the Investment Advisor, selected and is provided for informational purposes only. The attached analysis is not investment advice as defined under the Employee Retirement Income Security Act of 1974, as amended (ERISA), and should not be construed or intended to be an offer of any type including tax, legal or investment advice. In addition, this analysis is not a solicitation by Janus for the purchase, sale, or recommendation of any securities offered by Janus or any third party. Providing investment advice, as defined under ERISA, as amended, to a Plan or Plan participant may prohibit an investment professional from receiving 12b-1 fees.

The undersigned has provided Janus Capital Group with the list of products making up the fi360[®] Report and the report has been provided at the specific request of the Undersigned. The Undersigned understands that while the fi360[®] Report is a valuable tool in analyzing some risk and return characteristics of products, it does not represent a complete comparison of the products shown. Material differences may exist between the products the Undersigned has chosen to compare in the fi360[®] Report. The Undersigned agrees that the fi360[®] Report will not be distributed broadly to his or her firm's sales force nor will it be distributed to existing clients or potential investors in any products offered by the Undersigned or Janus Capital Group.

The attached analysis does not include all investment options offered by Janus. Please refer to www.janus.com for a complete list of the Janus investment options available to you.

For Janus funds, the performance data contained herein represents past performance, which does not guarantee future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted. Performance shown may reflect the historical performance of a predecessor fund. Call 877.33JANUS (52687) or visit janus.com/advisor/mutual-funds for additional disclosure and performance current to the most recent month-end.

Performance shown for Janus funds Class A Shares at MOP includes the funds' maximum sales charge of 5.75% for equity funds 4.75% for Janus Flexible Bond Fund, Janus Global Bond Fund and Janus High-Yield Bond Fund and 2.50% for Janus Short-Term Bond Fund. Performance shown at NAV does not include this sales charge and would have been lower had this sales charge been taken into account.

Certain Janus funds have a performance-based management fee that adjusts up or down based on the fund's performance relative to an approved benchmark index over a performance measurement period. See the fund's Prospectus or Statement of Additional Information for more details.

All total returns assume the reinvestment of dividends and capital gains and do not reflect the deduction of any sales charge as these charges are not applicable to eligible 401(k) plans.

The investment menu provided by you, the Advisor, reflects funds that you have deemed to be available as of the date of submission for proposal. Should you accept the proposal, fund selection should be re-verified to ensure fund availability prior to implementation. This material is being provided in response to your request and may not be distributed to anyone other than the requestor.

For Janus funds, please consider the charges, risks, expenses and investment objectives carefully before investing. For a prospectus or summary prospectus, if available, containing this and other information, please call Janus at 877.33JANUS (52687) or download the file from janus.com/info. Read it carefully before you invest or send money.

Calculation Methodology

The fi360 Fiduciary Score® is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The criteria include total returns, risk-adjusted returns, expenses, and other portfolio statistics. Investments are ranked according to their ability to meet due diligence criteria every calendar quarter. The rank becomes the fi360 Fiduciary Score (Quarter). The fi360 Fiduciary Score (Average) is a one-, three-, five- or ten-year rolling average of an investment's Quarter Score. The fi360 Fiduciary Score represents a suggested course of action and is not intended, nor should it be used, as the sole source of information for reaching an investment decision. Style Analysis

Morningstar Style Box™ Overview

The Morningstar Style Box™ is a nine-square grid that provides a graphical representation of the investment style of mutual funds, variable annuity sub-accounts and separately managed accounts.

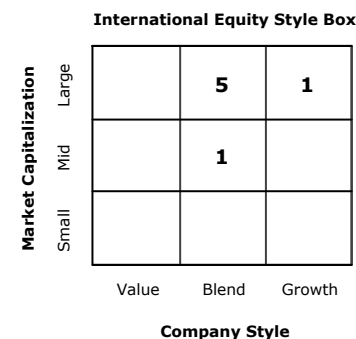

- US and Intl. equities are classified according to market capitalization (the vertical axis) and growth and value factors (the horizontal axis).
- Fixed income funds are classified according to credit quality (the vertical axis) and sensitivity to changes in interest rates (the horizontal axis)

Please note:

- (1) A Style Box is only displayed if the investment has > 20% allocation in the corresponding asset class (ex. > 20% in US Stocks for the US Equity Style Box);
- (2) Some investments do not fit into a style box and will be identified at the end of the section;
- (3) Investments that have receive BOTH an equity and fixed income style box using the methodology above will be excluded from the charts and identified at the end of the section.

Fi360 Fiduciary Score Scatter Plot

The chart plots each scored investment using the fi360 Fiduciary Score Average (3yr) on the vertical axis and the Fi360 Fiduciary Score Quarter on the horizontal axis. Green, yellow and red lines are drawn to highlight the different fi360 Fiduciary Score quartiles. Investments in the bottom left corner of the chart have a better score.

Bubble sizes are based on the \$ amount invested. | Bubble numbers refer to the Investment ID's on the previous page.

Investment Snapshot

The fi360 Fiduciary Score® is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The criteria include total returns, risk-adjusted returns, expenses, and other portfolio statistics. Investments are ranked according to their ability to meet due diligence criteria every calendar quarter. The rank becomes the fi360 Fiduciary Score (Quarter). The fi360 Fiduciary Score (Average) is a one-, three-, five- or ten-year rolling average of an investment's Quarter Score. The fi360 Fiduciary Score represents a suggested course of action and is not intended, nor should it be used, as the sole source of information for reaching an investment decision. Visit fi360.com/fi360-Fiduciary-Score for the complete methodology document.

Investors should consider the investment objectives, risks, and charges and expenses of a fund carefully before investing. Prospectuses containing this and other information about the fund are available by contacting your financial consultant. Please read the prospectus carefully before investing to make sure that the fund is appropriate for your goals and risk tolerance. The performance information shown represents past performance and is not a guarantee of future results. The investment return and principal value of an investment will fluctuate so that the shares, when redeemed, may be worth more or less than their original cost. The performance information shown reflects performance without adjusting for sales charges. If adjusted for sales charges, the load would reduce the performance quoted. Current performance may be lower or higher than the performance information shown. For performance data current to the most recent month-end, please reference the Investment Company Contact Information section. Text in bold italics indicates Extended Performance. Fiduciary Score data points calculated using Extended Performance are shown with a colored border instead of a background. Extended performance is an estimate based on the performance of the investment's oldest share class, adjusted for fees.

Standardized Performance Disclosure (Mutual Funds and ETFs only)

Standardized Returns for the quarter ending 6/30/2011. Returns for periods of less than one year are not annualized. Standardized Returns assume reinvestment of dividends and capital gains. It depicts performance without adjusting for the effects of taxation, but are adjusted to reflect sales charges and ongoing fund expenses. If adjusted for taxation, the performance quoted would be significantly reduced. The sales charge used in the calculation was obtained from the fund's most recent prospectus and/or shareholder report available to Morningstar.

Investors should consider the investment objectives, risks, and charges and expenses of a fund carefully before investing. Prospectuses containing this and other information about the fund are available by contacting your financial consultant. Please read the prospectus carefully before investing to make sure that the fund is appropriate for your goals and risk tolerance. The performance information shown represents past performance and is not a guarantee of future results. The investment return and principal value of an investment will fluctuate so that the shares, when redeemed, may be worth more or less than their original cost. The performance information shown reflects performance without adjusting for sales charges. If adjusted for sales charges, the load would reduce the performance quoted. Current performance may be lower or higher than the performance information shown. For performance data current to the most recent month-end, please reference the Investment Company Contact Information section.

Text in bold italics indicates Extended Performance. Fiduciary Score data points calculated using Extended Performance are shown with a colored border instead of a background. Extended performance is an estimate based on the performance of the investment's oldest share class, adjusted for fees.
